Bay Area Wealth Management Group at Morgan Stanley

Wealth Management built around your
life and the legacy you want to leave.

Advice Shaped Around Your Life

At Bay Area Wealth Management Group, we know that significant wealth is about far more than markets and models. It is about your life, your family, your business, and the future you are building for the people and causes that matter most to you.

Our work begins with listening. We take the time to understand your priorities, your concerns, your family dynamics, and the decisions you are facing now and in the years ahead. From there, we help bring structure to the moving parts of your financial life, so your investments, planning, liquidity needs, tax considerations, estate goals, philanthropy, and family priorities are considered together.

As wealth becomes more complex, knowing what questions to ask can be as important as knowing which answers to pursue. Whether you are managing concentrated stock, preparing for a business sale or liquidity event, planning for retirement, thinking across generations, or simply wondering whether your current wealth strategy is as coordinated as it should be, we help you evaluate decisions with clarity, care, and perspective.

We work with multigenerational families, corporate executives, founders and business owners, and nonprofit organizations, helping them make informed financial decisions through thoughtful wealth planning, disciplined portfolio management, and relationships built on integrity and personalized service. We use approved technology and AI-enabled tools to support preparation, organization, follow-through, and responsiveness—while keeping judgment, experience, and personal relationships at the center of the advice we provide.

We bring the global resources of Morgan Stanley to a focused number of client relationships, so advice remains personal, responsive, and aligned with what matters most. As life evolves, your plan should evolve with it. Our goal is to help you move forward feeling informed, prepared, and supported by a team that knows you, understands your priorities, and stays engaged as your life, family, and legacy continue to evolve.

Tailored advice. Careful oversight. Disciplined follow-through.

Who We Serve and How We Add Value

Most advisors can manage a portfolio. We help clients manage the decisions, trade-offs, family priorities, and coordination that come with significant wealth—the issues that often matter just as much as the investments themselves.

MULTIGENERATIONAL FAMILIES
We work with families who want their wealth managed with the same care and intention they bring to the rest of their lives. This often means looking beyond investment management alone to create a more coordinated plan—one that may include cash-flow mapping, education funding, advanced estate planning, multigenerational wealth transfer, tax-aware planning, charitable giving, banking, lending, and values-aligned investing strategies. For families thinking about stewardship and legacy, we help clarify intentions, prepare rising generations, align accounts and titling, establish donor-advised funds, and support family conversations so wealth can serve the people, values, and future you care about most.

CORPORATE EXECUTIVES
Corporate executives turn to us for help navigating the complexity that can come with concentrated company stock, equity awards, trading windows, 10b5-1 plans, restricted securities, tax exposure, and major liquidity decisions. As part of Morgan Stanley's Executive Financial Services network, we help executives think through how company stock fits within a broader wealth strategy—including diversification, cash flow, risk management, tax-aware planning, family priorities, and long-term goals.

FOUNDERS AND BUSINESS OWNERS
Founders and business owners rely on us when personal wealth becomes more complex than the business itself. If you are preparing to sell a company or planning for an IPO or major liquidity event, we coordinate with your tax and legal team on entity structures, pre-transaction gifting, cash management during a sale, and post-sale portfolio construction. The goal is to help turn business success into enduring personal wealth that supports your lifestyle, your family, your future choices, and the broader vision you have worked so hard to build.

NONPROFIT ORGANIZATIONS
Nonprofit organizations value our disciplined investment guidance and long-term perspective. Our work includes assistance with fiduciary governance, Investment Policy Statement design, board education and best practices, portfolio construction, bespoke performance reporting for boards and committees, and mission-aligned investing. We help organizations make thoughtful financial decisions in support of both stewardship and mission.
