I know what it will cost to educate my children (and grandchildren, if any) when the time comes

## **Taking Care of Loved Ones**

## Preparing for the emotional stress and expense of caregiving begins with asking yourself some key questions

- Would you be able to continue working?
- If not, how would you replace your income?
- Will the time you need to spend away from your job affect your chances for promotions or raises?
- Can you afford to care for your parents and still meet your financial goals?
- What role will your siblings play?
- Have you thought about purchasing long-term care insurance for your parents?

I know what it will cost to educate my children (and grandchildren, if any) when the time comes

I have investments that I believe will provide a dependable stream of income in the future

Will you be able to live comfortably if Social Security isn't a reliable source of income?

## Save Early, Save Often

There is no substitute for saving as early and as often as you can. Compound growth makes a lifelong difference:

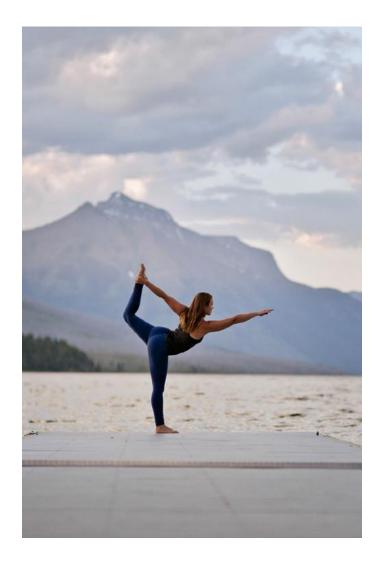

#### For illustrative purposes only

Assumptions: Annual contributions of \$1200 and a hypothetical 6% annual rate of return, compounded (time frame). Rates will vary over time, particularly for long term investments. Hypothetical results are for illustrative purposes only and are not intended to represent future performance of any particular investment. Your actual results may differ. The principal value and investment return of an investment will fluctuate with changes in market conditions, may be worth more or less then original cost. Taxes may be due upon withdrawal.

## **Preparing for Retirement**

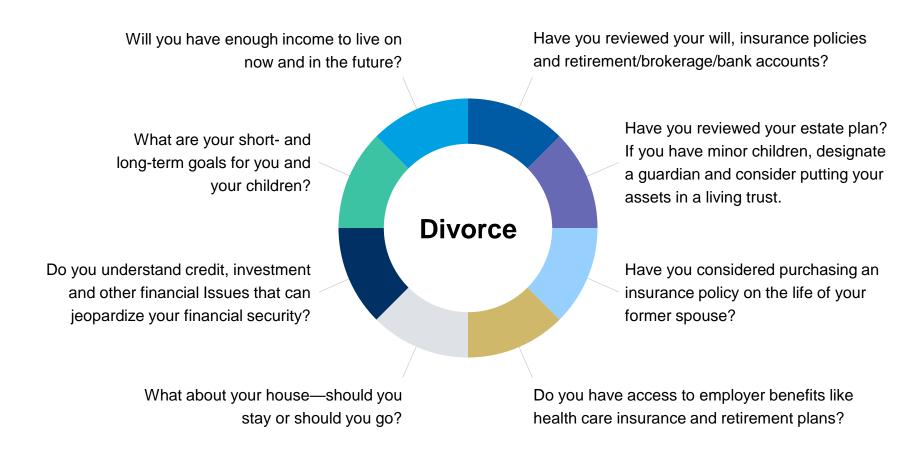

- Contribute to your company retirement plan
- Determine retirement lifestyle goals
- Calculate expected income during retirement
  - Remember, inflation may be a bigger enemy than stock market volatility
  - Consider what could happen if you became ill or disabled
- Check that your estate plan is aligned with your retirement plan
- Plan for the orderly transition of your business to a successor
