

## Focuses & Services Summary

Introducing Intent Clinical, formerly O'Connor Professional Group, a leading provider of focused care in life's most uncertain moments. With a depth and breadth of clinical focus and experience, we support individuals, families, and organizations progress toward their wellness goals. Utilizing our network of providers, we offer responsive, customizable solutions with a systems approach to care.

### RANGE OF FOCUS

**Mental Health** — We help our clients and their families navigate the fragmented mental health system, manage symptoms and crises, and develop long-term plans to meet their needs and goals.

**Addiction & Substance Use** — From alcohol and drug use to compulsive behaviors like gambling, sex, overspending, and gaming, Intent Clinical provides custom services to individuals and family members.

**Intent Fertility Navigation™** — Intent Clinical works with individuals and families to develop personalized plans for every step of the fertility journey. From education and advocacy through the continuum of care, to practical support in the home or community, our team of specialists stands ready to guide each unique path toward family-building.

**Families** — Intent Clinical balances the acuity and risk of the situation with the preservation of healthy family dynamics. We ensure clients have a trusted therapeutic partner in challenging situations and feel empowered to take action that facilitates family well-being.

**Eating Disorders** — Intent Clinical works to create individualized recovery plans to meet each unique need along every step of an eating disorder journey — from navigation and advocacy through the continuum of care, to direct support in the home or community, our team of eating disorder professionals support every step of the way.

**Autism & Neurodiversity** — Intent Clinical helps clients and their families navigate complex therapeutic, social, and academic systems, and provides in-home care to promote skill development, support daily living, and strengthen social/community connection.

**Neurocognitive & Aging-Related Care Management** — With a national network of Certified Dementia Practitioners and a diverse team of aging care professionals, we provide direct support, strategic planning, and navigation services to support individuals and their families across the aging spectrum.

**Navigating Life Transitions** — Even some of the most exciting events and transitions can be challenging to navigate. Intent Clinical provides guidance, clarity, and practical skills to effectively manage life's inflection points.

### COMPREHENSIVE SUPPORT SERVICES

**Behavioral Health Navigation** — We know that the healthcare landscape is saturated and can be challenging to navigate. Intent Clinical provides specialized guidance to ensure that our clients and their families are connected with the best behavioral health and aging-related resources to meet their unique needs and circumstances.

**Concierge Psychological Assessment** — We help individuals to gain a better understanding of self, obtain an accurate diagnosis, elucidate a learning profile, and develop a focused and practical treatment plan offering the data and insights necessary to lay a foundation for success.

**Treatment Placements** — Using our expansive knowledge and network of resources in the treatment landscape, our professionals will use information gleaned from clients, families, and their providers to make the most appropriate recommendations for continued care.

**Therapeutic Coaching & Care Coordination** — Operating as a hub and augmenting other therapeutic providers, our coaches work with our clients and their families to provide dedicated in-home and in-community care focused on delivering collaborative and goal-oriented support.

**Therapeutic Companions** — 24/7 therapeutically-informed care for individuals requiring more support than traditional outpatient treatment can provide. Our companions are adept at navigating crises, collaborating to support stabilization, and ensuring more seamless transitions back from a higher level of care.

**Consultations** — Specialized services to advise an individual, family, employer or advisor on a direction for care.

**Individualized Psycho-Education** — Customized presentations for our clients, their families and advisors about specific diagnoses to aid in decision making, managing symptoms, and fostering resilience.

**Monitoring & Testing** — For those in need we augment mental health care with monitoring and testing services to reinforce healthy behaviors with objective data.

**Facilitated Family Meetings & Interventions** — Mediating complicated subject-matter, our family coaches seek to align family members on treatment direction, conflict resolution and to develop healthy family goals.

**Family Coaching** — Develop a unified, compassionate and constructive plan to address a parent's, child's, sibling's, or other loved one's concerning behaviors.

**Distribution Advisor Services** — Guidance for trustees regarding discretionary distribution decisions for beneficiaries with behavioral and mental health challenges.

**Aging Care** — We provide a holistic and empathetic approach to direct support services, care coordination, and strategic navigation across an aging spectrum.
