These risks can include but are not limited to: fluctuations in the price, level or yield of underlying asset(s), interest rates, currency values and credit quality, substantial loss of principal, limits on participation in appreciation of underlying asset(s), limited liquidity, credit risk, and/or conflicts of interest. Many structured investments do not pay interest or guarantee a return above principal at maturity. Investors should read the security's offering documentation prior to making an investment decision.

Alternative investments often are speculative and include a high degree of risk. Investors could lose all or a substantial amount of their investment. Alternative investments are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time. They may be highly illiquid and can engage in leverage and other speculative practices that may increase the volatility and risk of loss. Alternative Investments typically have higher fees than traditional investments. Investors should carefully review and consider potential risks before investing.

Individuals executing a 10b5-1 trading plan should keep the following important considerations in mind: (1) 10b5-1 trading plans should be reviewed and approved by the legal and compliance department of the individual's company. (2) Most companies will permit 10b5-1 trading plans to be entered into only during open window periods. (3) Recent rule changes will require a mandatory cooling-off period between the execution of a 10b5-1 trading plan (or a modification) and the first sale pursuant to the plan (or the first sale following such modification). (4) 10b5-1 trading plans do not alter the nature of restricted and/or control stock or regulatory requirements that may otherwise be applicable (e.g., Section 16, Section 13). (5) 10b5-1 trading plans that are terminated early may weaken or cause the individual to lose the benefit of the affirmative defense. (6) 10b5-1 trading plans may require a cessation of trading activities at times when lockups may be required at the company (e.g., secondary offerings). (7) Recent rule changes will require companies to publicly disclose material terms of Section 16 director and officer 10b5-1 trading plans, and the early termination of such plans.
